

## Minutes of the Meeting dated 15-03-2020

1. Discussion Paragraph can be added as many as required, not limited				
2. References should have , as a delimiter.				
3. In Add quiz - there can be 0 or many questions, each question can have minimum 2 and maximum 4 options and only one correct answer.				
4. Updating screen- Action item on Rohit to see if updated Video URL can also get played in the IFrame there or not. PReferable to have.				
5. Moving a topic option is required or not, user may delete and add as needed - Idea dropped				
6. Putting the topic in trash will move this in audit history collection, but Chetna need to see how this can be uploaded back if needed. Do we need any interface for that or it will be manual?				
7. Super admin only will have the permission to approve the additions , modifications and deletions made by admin. Once that is approved, then only it will be visible on the website.				
8. CSV upload is feasible in future.				
9. Make sure that options like levels are not hardcoded but are picked from a master collection				
10. Next steps -				
Implementation of SSO				
Completion of I am Aware Admin Panel
