"Life is not easy for any of us. But what of that? We must have perseverance and above all confidence in ourselves. We must believe that we are gifted for something and that this thing must be attained." - Marie Curie

True education ensures that a child is able to handle daily life situations meticulously. To move towards an enlightened society, it is important that today's children be equipped to take up challenges and learn to accept their shortcomings and work towards converting them into their strengths. This theme is dedicated to imparting Life Skill Education.
